25 creative ways to use peel & stick wallpaper.

1. table topper

Upload your own photo to use instead of a tablecloth for a birthday, or find a seasonal image to decorate any table for the holidays. Peel-and-stick is easy to wipe, clean, and remove.

2. videoconferencing in style

Show your seriousness about your home office space. Transform that plain wall behind you into a real background for video calls.

[order mural: leaping pages](#)

3. make doors less drab

Easily the most overlooked decorating opportunities in your house—interior doors to bedrooms, bathrooms, closets, and pantries. Cover the entire door, or cut wallpaper panel accents to fit inside the molding.

[order pattern: modern minimalist](#)

3. instant wall art

Create a standalone piece of faux canvas art or hangable collage by applying peel-and-stick wallpaper on cardboard, wood, or glass mounted inside some old frames.

5. spice up your kitchen space

Instead of investing in traditional tiles for your kitchen's backsplash, choose from endless pattern choices from florals to faux brick. Mount plexiglass over the wallpaper to make it waterproof and change it out as often as you want.

6. wakeup your nightstand

A simple, yet oh-so-clever way to turn any generic-looking nightstand into something chic and unique. Give your bed's space mate a facelift by applying textured or patterned peel-and-stick to drawer faces.

7. dresser dress up

Love that old dresser but not the color and style? Peel-and-stick florals patterns and geometrics deliver the same artsy effect of paint and stenciling without the time-sucking dirty work.

8. refresh a serving tray

For any boring, old serving tray crying out for some love. When not helping serve drinks and breakfast in bed, a tray dressed up with peel-and-stick can be displayed on a kitchen shelf as a piece of eye-catching décor.

9. rescue a coffee table

Restore some dignity to that old workhorse of living room decor. An easier route than refinishing, peel-and-stick wallpaper can deliver an easy and instant makeover to coffee tables that are old, out of style, or just plain worn looking.

14. spaces for children

Playful patterns. Vibrant colors and textures. There's even a blank, "write-on" version of peel-and-stick perfect for decorating bedrooms and dedicated play spaces for children.

[order pattern: audio](#)

15. style for awkward spaces

Under the stairs. At the end of a hall. Weird architectural corners and nooks too small to put a comfy chair. Peel-and-stick wallpaper lets you turn the walls of those tricky spaces into something special in seconds.

16. dress up your closet

Bright, neutral closet colors—white, tan, gray, and beige—are favored by designers because they strike a starker contrast between the closet's walls and its contents. Try lightly patterned peel-and-stick wallpaper to give yours contrast with a little more class.

17. under the island or bar

Decorate that blank space under a kitchen island or long breakfast bar with a fun pattern or floral. Cheaper than a tile or wooden kick wall, peel-and-stick makes a louder statement and is still just as functional in helping hide scuffs.

18. check your headboard

Modern headboards protect the wall behind your bed from scuffs and abrasions. Give your old wooden one a personal touch. Or create the illusion of a headboard with a large square of peel-and-stick behind the bed.

19. decorate your desktop

Easily revitalize an old desktop and personalize with your workspace all at the same time. Peel-and-stick makes it simple modern styles and patterns to help you take on the world.

[order pattern: multi directional](#)

20. liven up a laptop

Add a thin, protective layer of awesome to your laptop. Graphic, floral, marble, and patterned peel-and-stick wallpaper lets you create a laptop your family, friends, and coworkers will notice.

[order pattern: cross the line](#)

21. line a drawer

Use inside a bedroom dresser, dining room buffet, or hutch. Vinyl peel-and-stick wallpaper is more durable than contact paper. Plus, there's way more latitude in pattern and color choices to help you tie every home decorating nook and cranny together.

[order pattern: willowed](#)

22. medicine cabinet

A fun and simple way to give your medicine cabinet a colorful whole new look. Washable peel-and-stick wallpaper also protects against spills and makeup stains.

[order pattern: tropics state of mind](#)

23. style up your stair risers

Applied to the stair risers, not the step treads, peel-and-stick wallpaper can add flair and style to staircases with minimal investment of money and time.
